AUGUST 2024

Hurricane Season Has Begun

Let's make sure everyone knows the drill and how to stay in contact with everyone during and after the storm. Once safe, we want to always try and get back open to serve food to our communities as best as we can. As we all know, the national media always tries to make things seem worse than they are; so try as best you can to keep your teams calm. Your Head Coaches and Region Coaches will be communicating with you throughout the storm event as always. Below is a checklist of what you should do before and after a hurricane.

Maintenance Hurricane Preparedness:

- Cover all POS, Computers, Kiosks, and electronics with plastic bags
- Turn off all cooking equipment and warmers before leaving
- Stores that have covers for exterior menu boards need to cover the ODMB
- Take before pictures of the building (all four corners)
- Inventory product in the walk in cooler and freezer before leaving the site and turn into the office

Maintenance Post Hurricane:

Report all damage per location to Maintenance Department (repair@bgfood.com) and Insurance Specialist. Repair and Maintenance will decide what to put in Corrigo to send directly to vendors.

FOOTBALL SEASON IS HERE

If you have a store close to a high school or college, be aware of game schedules. Staff and prepare accordingly.

YOU HAVE A VOICE!

Employees can call or text anytime they feel they have been treated unfairly, harassed in any way, to speak about unsafe work conditions, or have any issues with pay or being paid properly and on time.
