

BIG Taco Report

Maintenance Matters

As we continue to focus on keeping our stores running efficiently and safely, it's important that everyone stays proactive with routine checks and maintenance. Small issues can quickly turn into costly repairs, equipment downtime, and unnecessary expenses if they aren't addressed promptly. Please review the reminders below and make sure these steps are followed consistently to help keep our stores operating smoothly.

- **Time change is coming.** Make sure all lights are working and report any outages.
- **Check CO2 tank gauges** every few days to make sure they are full. This will help eliminate down time.
- **Always use Filter paper for fryers.** When stores don't use Filter paper the fryers get clogged. This sometimes takes 4-6 hours labor time plus parts.
- **If you notice water issues,** puddling in the lawn, toilets running, or faucets dripping please report it right away. This will save on the water bills.
- **Major equipment down?** Report to maintenance as soon as possible to help get it corrected in a timely manner.

B&G – NRAEF / USDOL APPRENTICESHIP PROGRAM

B&G has teamed up with the National Restaurant Association Education Foundation and U.S. Department of Labor to offer an opportunity to those employees interested in a long-term career in Restaurant Management. The Apprenticeship Program offers employees an alternative to attending a college or university with a two-year program. The program allows you to learn while you earn, which gives you credit for your restaurant work experience and training while taking courses that are part of the curriculum within two years. Once you've completed the curriculum, you will receive a Certificate of Completion from the National Restaurant Association Educational Foundation and U.S. Department of Labor, which is equivalent to a two-year degree. This certification is recognized in the Hospitality and Quick Service Industry and could help those interested in advancing to a higher paid position in restaurant management.

Are you interested in joining this two-year program?
